

BO-NASH 007 VINYL BOND

For Vinyl and Leather Repairs.,

Great for Craft Projects too! Fast, Flexible, Versatile.

Dries transparent but not invisible.

Instructions for use

1. Test on sample or inconspicuous area before attempting any repair.
2. Surface must be clean, dry and free from oils.
3. Apply an even film of vinyl bond 007 to edge of tear, rip or crack. Use only very sparingly. Use a toothpick to apply if a small area. Place a piece of tape perpendicular to tear to bring edges tightly together while it sets. Test fabric and tape combination for 30 minutes to determine that no adhesive residue or damage will occur. If the cut is large use a piece of scrap vinyl as a backing to reinforce.
4. Leave for 45 minutes
5. Remove tape.
6. You will have full bond strength in 6 hours.

Vinyl Bond 007 can be used for craft projects. It is great to apply beads and buttons to glass, metal, ceramics and wood. Apply thin film of adhesive to surface and hold in place until firm. Use to repair broken china and ornaments.

For burn holes in carpets: Trim away any burnt edges. Cut some excess fibers from inconspicuous area and cut up fine. Place small amount of vinyl bond into hole area and add cut up fibers. Be careful to use only a small amount of vinyl bond, otherwise area will turn hard.

Caution: Keep out of reach of children. Use with adequate ventilation. Avoid prolonged breathing of vapor. Avoid contact with eye and skin. Keep away from heat, extremely flammable. Harmful if swallowed. In case of eye contact, flush repeatedly with water. If swallowed give 1 or 2 glasses of water or milk, induce vomiting and call a physician.

Contains: Tetrahydrofuran, Methyl Ethyl Ketone.

Warranty: All items are warranted for 30 days from date of purchase or first use, (whichever comes first) against defects. During the warranty period, replacement of items will be made free of charge. This Warranty does not cover damages caused by accident, failure to follow directions or misuse of the product.
